

The font used on this page is “Univers Condensed”. The background color is a very dark grey, with hex value #0F0F0F. On initial startup, this text page is somewhat farther down, moving upwards when scrolling in order to cover up the background image somewhat and give more space for the content. The selected tab is indicated by a radial gradient that will look very different from the one displayed in this mockup with the gradient being dissolved into smaller, solid dots rather than blurring into the back color. On hover, the header tags should become somewhat larger and shift upwards. The sides of this page should be spattered with some small light-colored dots if possible in order to create some detail to the otherwise blank sidebars. This text box will have some kind of border/drop shadow in order to blend into the sides and background image better.

Images fitting the content are placed in locations that break up the text, moving it along to the next line.

Image information goes underneath of the images in smaller size font

The logo will also be the favicon for the pages and will stay consistent between pages. Other pages have layout similar to this one, unless otherwise specified.

Background image here functions the same as on every other page, but will have a different image.

This page holds more in-depth information about the project's various achievements, potentially showcasing information about graduates from the program and their individual achievements. Whenever this is done, an image of the graduate should accompany the achievements of the individual by being placed on the right side of the image.

Images fitting the content are placed in locations that break up the text, moving it along to the next line.

The background image should be different than the others

The background image of this page will be different from each other.

Paragraphs holding some form of contact information will be present here. The background image will be different on this page. This page will likely be much shorter than the rest, and will give contact information for email, phone, and in-person locations. Locations of the park may also be shown in images to the side of the contact information.

Information about the staff member depicted goes here, breaking around the image if necessary

Image depicting the staff member included goes here
